

Rural Obstetrical and Maternity Sustainability Program (ROAM-SP)

Building connections in rural medicine

How We Support You

We help you build, enhance or sustain clinical and personal supportive relationships in your community. Our aim is to increase your community-based confidence to provide sustainable locally orientated intrapartum services.

Coaches have access to optional Coaching and Mentoring Program Orientation and Skill Development Check-Ins. In these sessions, you will learn key coaching and mentoring skills from experts and have a safe space to practice among your peers. Study credits and sessional rate payment included.

After reading through the examples of coaching, you may realize that you are already involved in coaching and mentorship within your community! Please contact us if you would like to find out how we can support you in your current mentorship and coaching role.

Types of Coaching Activities

Coaching sessions may focus on:

- Coaching (Individual or group)
- Mentorship
- Peer exchange and support
- Skill development
- Knowledge sharing among rural obstetric providers

Coaching activities may include but are not limited to:

- Communication between coaching sessions
- Direct observation
- Didactic presentation
- Feedback
- Debriefing
- Case discussion

Learner-Driven & Confidential
